Earthquakes for week of  
**February 22 - 28, 1998**

	1-2	2-3	3+	Total
<b>Regional</b>	24	7	1	32
Mammoth Lakes Region	122	7	0	129
<b>This Week</b>	146	14	1	162
Previous week	261	42	2	305

▼ **Regional Activity:** For the second week in a row, earthquake activity in the M4+ range shook the Western Basin and Range. This week's temblor registered **M4.1** and occurred late Tuesday afternoon, Feb. 24, about 34 mi. SSE of Hawthorne and 29 mi. SW of Mina, near the Excelsior Mountains. It was centered along the NW margin of the Marietta playa W of the Marietta landing strip. It was likely felt at Mina. It was followed by nearly a dozen aftershocks, only one of which measured in the M2 range. A **M4.3** temblor triggered slightly W of here in April of last year.

▼ Activity in the Fish Lake Valley aftershock zone continued. The largest of 6 events measured M2.5.

▼ **Mammoth Lakes Region:** Activity declined. Largest: M2.5, in the Sierra Nevada S of the caldera.
